

Abstract :

To develop a software which provides book-keeping and ~~acc~~ ~~acc~~ accounting aid to the IMOs. The software ~~also enables~~ will also enable the IMOs to pay various statutory dues and taxes on time with zero errors. The IMOs are NGOs which get loans ~~fr~~ from the Rashtriya Mahila Kosh (RMK). The loans acquired by the IMOs are further lent to women entrepreneurs in rural and urban India. These women are a part of SHGs (Self Help groups) or Joint lender groups (JLGs). The software will be developed according to current accounting standards and IMOs will be able to view the overall financial position. This will help IMOs to make profitable decisions and it will also enlighten the IMOs on the subject of income generating activities and loss making activities.
